

AWS Monitoring Report - AlphaMD by Shailesh

Date: 08/01/2024

Evening Monitoring

Time: 11:00 AM

Checklist for AWS - AlphaMD: Completed

To check day to day Cost Consumption of Services

To check CPU Utilization for EC2, RDS

To check Network Traffic - In,Out for EC2,RDS

To check FreeableMemory for RDS,S3

To Check Free storage space for RDS,S3

To check ASG for functioning as expected

To check Trusted Advisor for potential improvement

To identify critical metrics to setup Alerts

To check IAM Access of Users and S3

Summary of Monitoring:

Note: All metrics are based on the last 24 hours since last monitoring on 5th Jan 2024.

Cost Consumption: The cost consumption is **\$55.73**

CPU Utilization:

- EC2 instances: CPU utilization is normal for all instances. No unusual pattern observed.
- RDS: CPU utilization for RDS instances is normal, no unusual pattern observed.

Network Traffic:

- EC2 instances: In and Out network traffic(kB) is normal

Freeable Memory(MB & GB):

- RDS: Freeable memory for RDS instances is within normal levels.

Free Storage Space(in GB):

- RDS: Free storage space for RDS instances is normal.
- S3: Free storage space data for S3 is within normal levels.

Auto Scaling Groups (ASG):

- ASG is provisioned but not in use, and there are no reported issues.

Trusted Advisor:

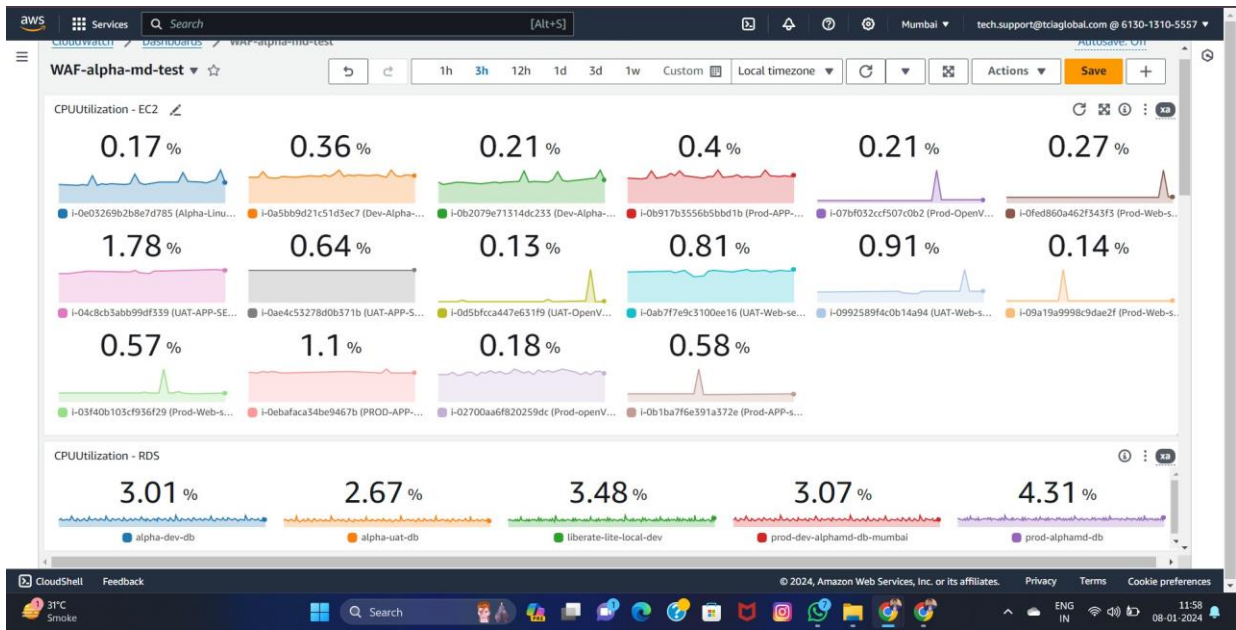

- No new recommendations in the last 12 hours.

IAM Access:

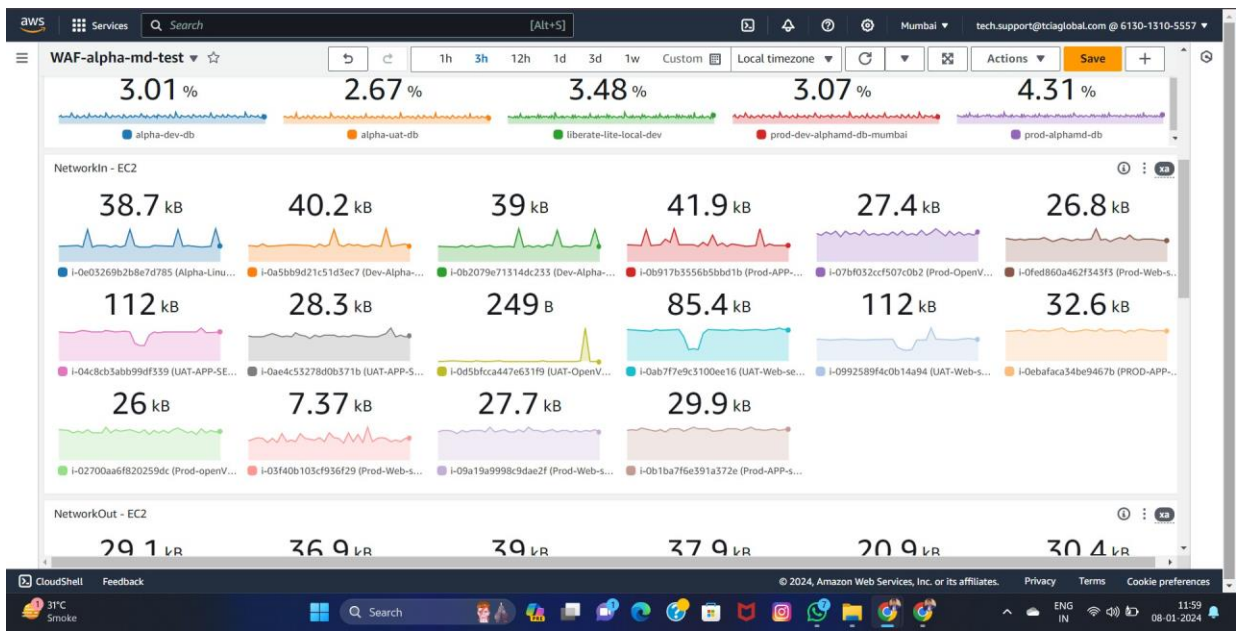

- IAM access for users and S3 is unchanged and remains secure.

Metrics Screenshots:

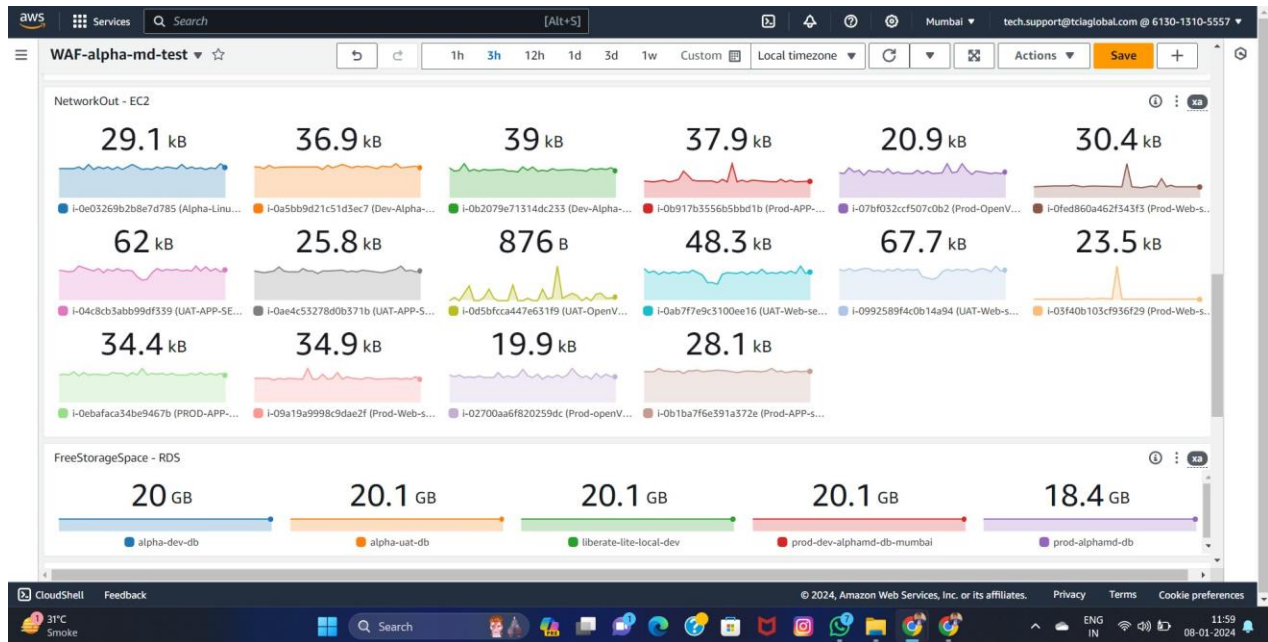

1. CPU Utilization for EC2 and RDS:

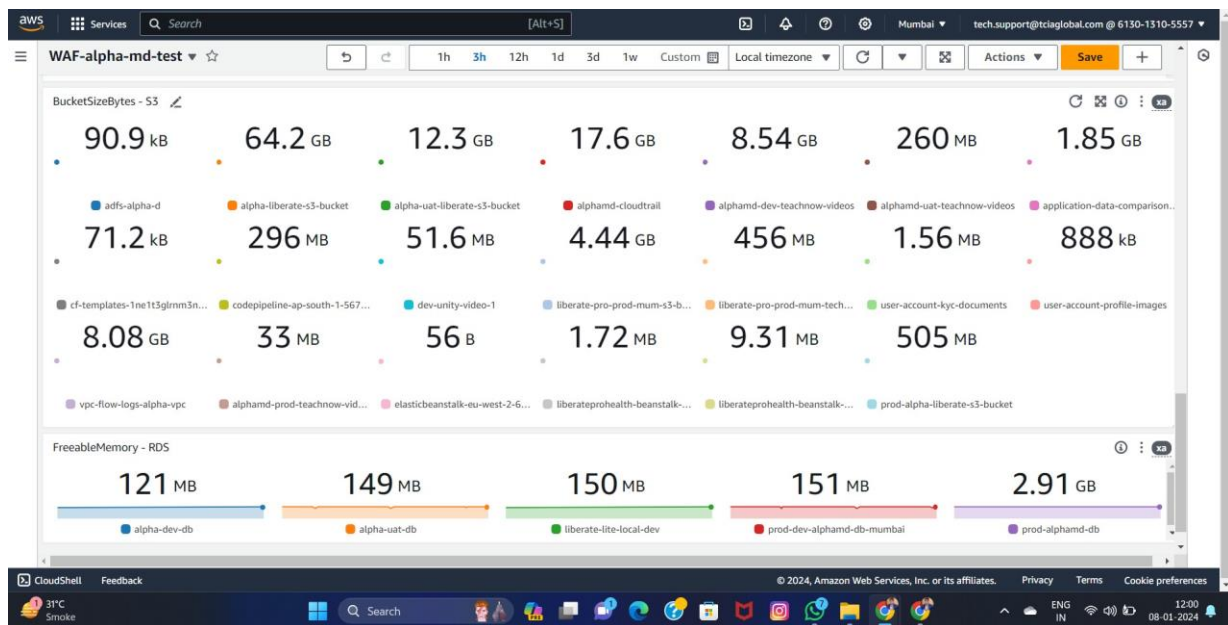

2. Network In Traffic of EC2:

3. Network-Out traffic for EC2 and Free storage space of RDS:

4. Bucket size bytes for S3 and Freeable Memory of RDS:

5. Auto Scaling groups and their status:

7. Basic Trusted advisor recommendations:

Trusted Advisor > Recommendations

Welcome to the AWS Trusted Advisor console!
A limited number of checks are available in this free version. For more information, see [Meet AWS Trusted Advisor](#). The Trusted Advisor console uses Identity and Access Management (IAM) policies for better security and flexibility. Some of your actions are currently restricted by these policies. Contact the account owner or administrator if you need help. [Learn more](#)

Trusted Advisor Recommendations

Refresh all checks Download all checks

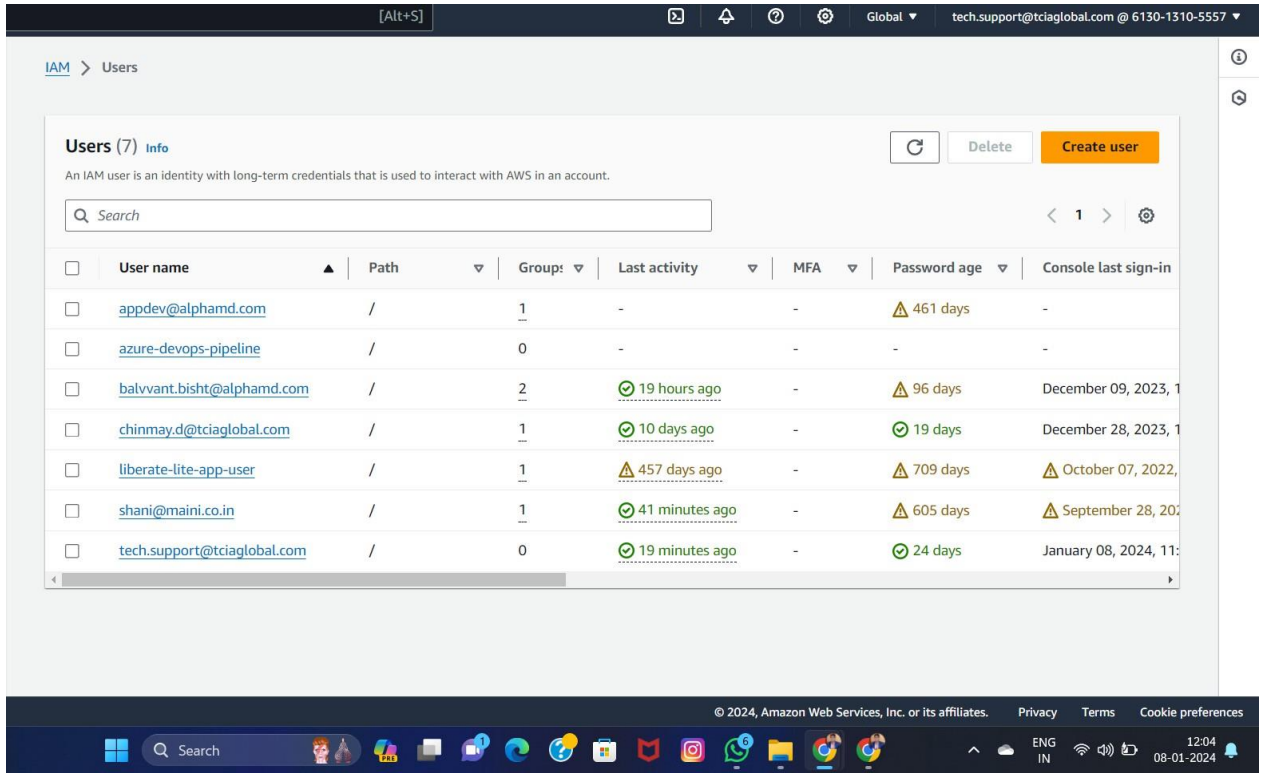

Use this page to get an overview of the check results in your AWS account. Choose a check name or category to view the recommended actions or potential issues that Trusted Advisor has identified. Each check provides more information about how to address any issues. You can also download a summary of all check results. [Learn more](#)

8. Available IAM users:

The screenshot shows the AWS IAM console 'Users' page. At the top, there's a navigation bar with 'IAM > Users'. Below the header, there's a section titled 'Users (7) Info' with a description: 'An IAM user is an identity with long-term credentials that is used to interact with AWS in an account.' To the right of this section are buttons for 'Refresh', 'Delete', and 'Create user'. Below the description is a search bar and a pagination control showing '1' of 7 items. The main content is a table listing the users with columns: User name, Path, Group, Last activity, MFA, Password age, and Console last sign-in. The table contains 7 rows of user data.

☐	User name	Path	Group	Last activity	MFA	Password age	Console last sign-in
☐	appdev@alphamd.com	/	1	-	-	⚠ 461 days	-
☐	azure-devops-pipeline	/	0	-	-	-	-
☐	balvvant.bisht@alphamd.com	/	2	✅ 19 hours ago	-	⚠ 96 days	December 09, 2023, 11:00
☐	chinmay.d@tciaglobal.com	/	1	✅ 10 days ago	-	✅ 19 days	December 28, 2023, 11:00
☐	liberate-lite-app-user	/	1	⚠ 457 days ago	-	⚠ 709 days	⚠ October 07, 2022, 11:00
☐	shani@maini.co.in	/	1	✅ 41 minutes ago	-	⚠ 605 days	⚠ September 28, 2022, 11:00
☐	tech.support@tciaglobal.com	/	0	✅ 19 minutes ago	-	✅ 24 days	January 08, 2024, 11:00

9. User group Access for S3 bucket:

The screenshot shows the AWS IAM console 'User groups' page for a group named 's3-bucket-Full-access'. The page has a navigation bar with 'IAM > User groups > s3-bucket-Full-access'. Below the header, there's a section titled 's3-bucket-Full-access Info' with a 'Delete' button. Below this is a 'Summary' section with an 'Edit' button. The summary contains three fields: 'User group name' (s3-bucket-Full-access), 'Creation time' (January 25, 2022, 17:34 (UTC+05:30)), and 'ARN' (arn:aws:iam:613013105557:group/s3-bucket-Full-access). Below the summary are tabs for 'Users (2)', 'Permissions', and 'Access Advisor'. The 'Users (2)' tab is selected, showing a section titled 'Users in this group (2)' with a description: 'An IAM user is an entity that you create in AWS to represent the person or application that uses it to interact with AWS.' To the right of this section are buttons for 'Refresh', 'Remove', and 'Add users'. Below the description is a search bar and a pagination control showing '1' of 2 items. The main content is a table listing the users in the group with columns: User name, Groups, Last activity, and Creation time. The table contains 2 rows of user data.

☐	User name	Groups	Last activity	Creation time
☐	balvvant.bisht@alphamd.com	2	29 days ago	1 year ago
☐	liberate-lite-app-user	1	1 year ago	1 year ago

10. User group Access for admin:

The screenshot shows the AWS IAM console interface for the 'admin' user group. The breadcrumb navigation is 'IAM > User groups > admin'. The group name is 'admin' with an 'Info' link. There are 'Delete' and 'Edit' buttons. The 'Summary' section displays the following details:

Property	Value
User group name	admin
Creation time	February 19, 2021, 11:42 (UTC+05:30)
ARN	arn:aws:iam::613013105557:group/admin

Below the summary, there are tabs for 'Users (2)', 'Permissions', and 'Access Advisor'. The 'Users (2)' tab is active, showing a list of users in the group. A search bar and pagination controls (1 of 2) are present. The user list is as follows:

User name	Groups	Last activity	Creation time
balvvant.bisht@alphamd.com	2	29 days ago	1 year ago
chinmay.d@tciaglobal.com	1	10 days ago	24 days ago

The bottom of the screen shows the Windows taskbar with various application icons and the system clock displaying 12:07 on 08-01-2024.

11. User Group Access for control group:

The screenshot shows the AWS IAM console interface for the 'user-access-control-group' user group. The breadcrumb navigation is 'IAM > User groups > user-access-control-group'. The group name is 'user-access-control-group' with an 'Info' link. There are 'Delete' and 'Edit' buttons. The 'Summary' section displays the following details:

Property	Value
User group name	user-access-control-group
Creation time	July 09, 2021, 16:06 (UTC+05:30)
ARN	arn:aws:iam::613013105557:group/user-access-control-group

Below the summary, there are tabs for 'Users (2)', 'Permissions', and 'Access Advisor'. The 'Users (2)' tab is active, showing a list of users in the group. A search bar and pagination controls (1 of 2) are present. The user list is as follows:

User name	Groups	Last activity	Creation time
appdev@alphamd.com	1	None	1 year ago
shani@maini.co.in	1	1 year ago	2 years ago

The bottom of the screen shows the Windows taskbar with various application icons and the system clock displaying 12:09 on 08-01-2024.
